CONSIDER THIS

All of the Operation Go training material, the SWDI Syllabus and discipleship material have already been translated into Swahili. With Kenya being positioned as the gateway to East Africa, an entirely new section of the world will be opened to the Witness Project.

Many unreached people groups, inhabited with those who have never heard of Jesus, will be won to Christ, churches established and Gospel outreaches multiplied. Additionally, soul winning and church planting will be established in existing churches.

Kenya will join India, the Philippines, Central America and other countries in providing a platform to launch the Witness Project's outreach into multiple neighboring countries.

BUDGET All travel, lodging, printing of material and logistics \$8,200
